CATALOGUE COMPOSITIONS

The top diagram shows a stepped profile with a total length of 140 + 180 = 320 and a constant height of 40. The first section (length 140) is solid grey. The second section (length 180) contains a smaller solid grey rectangle followed by a hatched area. A cross-section to the right shows a square of side 40 with a small rectangular notch on its right side.

The bottom diagram shows a stepped profile with a total length of 60 + 140 = 200. The first section (length 60) has a height of 61.5 and contains a hatched area. The second section (length 140) has a height of 140. A cross-section to the right shows a rectangle of height 50 with a small rectangular notch on its right side. The total height of the profile is indicated as 31.5 on the right side.

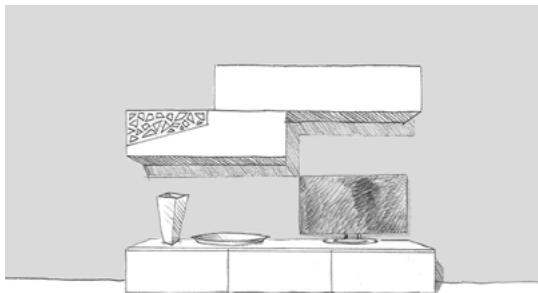

L. W. 320
P. D. 50

A diagram of a rectangular plate with a total width of 270 and a height of 50. A vertical line is drawn 40 units from the left edge, dividing the plate into two sections: a 40x50 rectangle on the left and a 230x50 rectangle on the right.

The first diagram shows a large rectangle with a total width of 180 and a height of 40. A smaller rectangle with a width of 140 and a height of 40 is attached to the bottom-left corner. The area of the 140x40 rectangle is shaded with a cross-hatch pattern. To the right of this diagram is a small square with a side length of 40, divided into four quadrants by a horizontal and a vertical line.

The second diagram shows the same 180x40 rectangle, but it is divided into three equal vertical sections, each with a width of 60 and a height of 40. The total width is labeled as 180, and the width of one section is labeled as 90 (which is 60 + 30, where 30 is the width of the remaining two sections). To the right of this diagram is a small square with a side length of 50, divided into four quadrants by a horizontal and a vertical line.

L. W. 270
P. D. 50

A diagram of a rectangular box. The top edge is labeled 340. The left vertical edge is labeled 50. The right vertical edge is labeled 40. The box is shown in a perspective view with dashed lines for hidden edges.

Diagram showing the decomposition of a 180x40 rectangle into four 90x20 rectangles. The top row has two 90x20 rectangles, and the bottom row has two 90x20 rectangles. The total width is 180, and the total height is 40.

The figure contains five separate diagrams illustrating cake-cutting methods:

- Top-left diagram:** A vertical rectangle divided into three horizontal sections. The top section has a width of 40 and a height of 120. The middle section has a width of 40 and a height of 40. The bottom section has a width of 40 and a height of 40.
- Top-middle diagram:** A horizontal rectangle divided into three vertical sections. The left section has a width of 180 and a height of 40. The middle section has a width of 40 and a height of 40. The right section has a width of 40 and a height of 40.
- Bottom-left diagram:** A horizontal rectangle divided into three vertical sections. The left section has a width of 41.5 and a height of 120. The middle section has a width of 90 and a height of 120. The right section has a width of 120 and a height of 120.
- Bottom-right diagram:** A vertical rectangle divided into three horizontal sections. The top section has a width of 40 and a height of 40. The middle section has a width of 40 and a height of 40. The bottom section has a width of 40 and a height of 40.

A hand-drawn sketch of a modern interior design. The central focus is a large, multi-tiered shelving unit with a geometric, faceted design. It features a central display cabinet with glass doors containing books and decorative objects. To the right, a large rectangular screen or artwork is mounted on the wall. Below the main shelving unit, there is a long, low console or base unit with a similar geometric design and a central open compartment. The entire scene is set against a plain, light-colored background.

The technical drawing consists of three orthographic projections of a mechanical component:

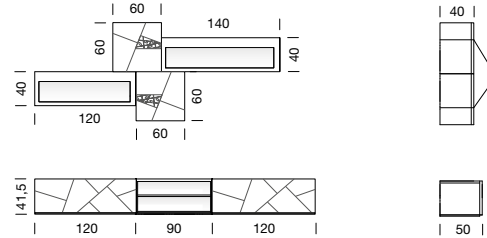

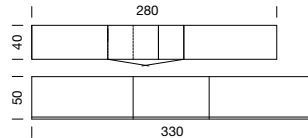

- Front View (Top Left):** Shows a stepped profile. The total width is 60 + 180 + 60 = 300 units. The total height is 60 + 120 = 180 units. It features two rectangular cutouts on the left and right sides, each 60 units wide and 60 units high. A diagonal hatching pattern is used to indicate a specific material or section.
- Top View (Bottom Left):** Shows the plan of the object. The total length is 120 + 120 = 240 units. The total width is 60 + 60 = 120 units. It shows the arrangement of the cutouts from above. A dimension of 141.5 is indicated along the left edge, likely representing a center-to-center distance or a specific offset.
- Side View (Right):** Shows the profile from the side. The total height is 40 + 120 + 50 = 210 units. It shows the thickness of the various steps of the component.

Technical drawing of a rectangular frame. The top view shows a frame with a central rectangular opening. The overall width is 140, and the overall height is 120. The frame has a thickness of 6. The central opening has a width of 140 and a height of 140. The side view shows the frame's profile, with a total height of 120 and a base width of 50. The frame has a top flange and a bottom flange, with a central opening of height 140. The side view also shows a cross-section of the frame, indicating a thickness of 6.

Two horizontal rectangles are shown. The top rectangle is divided into three equal sections and is labeled 40 on the left. The bottom rectangle is also divided into three equal sections and is labeled 50 on the left. Below the bottom rectangle, the number 330 is written.

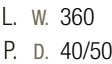

The top bar model shows a bar of length 40 divided into four equal segments. The bottom bar model shows a bar of length 360 divided into three equal segments. A dashed box in the third segment of the bottom bar model is labeled 180.

Technical drawing of a mechanical part with dimensions. The drawing shows a side view of a component with a total width of 180 and a total height of 120. The top section has a width of 180 and a height of 40. The bottom section has a width of 180 and a height of 61.5. The bottom section is divided into three segments: a left segment with a width of 120 and a height of 41.5, a middle segment with a width of 120 and a height of 61.5, and a right segment with a width of 60 and a height of 61.5. The right segment contains two rectangular features, each with a width of 40 and a height of 40. A dimension line indicates a distance of 6 from the right edge of the bottom section to the right edge of the middle segment.

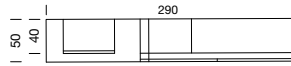

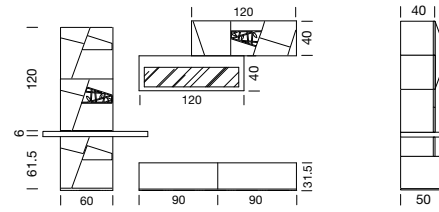

The figure consists of two schematic diagrams. The top diagram shows a horizontal rectangle divided into three equal sections by dashed vertical lines. To the left of the first section, there is a vertical dimension line labeled '40'. Below the first section, there is a horizontal dimension line labeled '180'. The bottom diagram shows a similar horizontal rectangle divided into three equal sections by dashed vertical lines. To the left of the first section, there is a vertical dimension line labeled '50'. Below the first section, there is a horizontal dimension line labeled '360'.

Technical drawing of the 'Elegance' door system, showing front, side, and detail views with dimensions in millimeters.

Front View (Top):

- Overall width: 120 + 120 + 40 + 40 = 320 mm.
- Overall height: 120 mm.
- Left panel (120 mm wide) is divided into four quadrants, each 60 mm wide and 60 mm high.
- Right panel (80 mm wide) consists of two vertical sections, each 40 mm wide.

Side View (Bottom):

- Overall height: 120 mm.
- Overall width: 120 + 90 + 120 = 330 mm.
- The door is shown in a closed position, with a 120 mm wide panel on the left and a 90 mm wide panel on the right.

Detail View (Right):

- Shows a close-up of the door edge with a height of 120 mm.
- The bottom section is 28 mm high.
- The top section is 140/41 mm high.
